THE CRITTENDEN AMENDMENT.

The following is the Crittenden amendment which was offered by Mr. Montgomery, and adopted yesterday in the House of Representatives:

Section 1. That the State of Kansas be, and is hereby admitted into the Union on an equal footing with the original States in all respects whatever; but inasmuch as the Constitution of said State was not formed in pursuance of law, but was framed by a convention of persons assembled in said Territory without any authority of law, except such as they derived from the usurped government established among them by the invading forces of the Territory of Kansas, which government has been condemned by the people of said Territory, at a fair election held for that purpose, and is now universally known to be so odious that no State government can be formed therein which will be acceptable to the people, the said Constitution is not recognized as the act and deed of the people of said Territory, and is therefore void and of no effect; and the people of said Territory are hereby authorized to form a Constitution and State Government for themselves, and to come into the Union as a State, with or without slavery, as they may determine, when they have the requisite population for a member of Congress according to the ratio of representation then existing in the House of Representatives of the United States.

Also, that in order to remove doubts which have arisen as to the true construction of the Act of Congress, entitled "An Act to enable the people of the Territory of Kansas to form a Constitution and State Government preparatory to its admission into the Union on an equal footing with the original States," approved February 4, 1858, it is hereby declared that the said Act was not intended to diminish, enlarge, or affect in any way the right of any person or property in the Territory of Kansas, or the power, duty, or authority of the Government of the United States or of the Territorial Government of Kansas, as they existed and were exercised before the passage of said Act, except as to the form and manner of framing the Constitution and State Government to be formed preparatory to the admission of said Territory into the Union as a State; and that the boundaries of said State shall not include more than the area of land embraced within the following limits, to wit: Beginning at the point where the western boundary line of the State of Missouri intersects the fortieth parallel of north latitude, and running thence due west on said parallel to the eastern boundary of the Territory of Utah, thence due south on said boundary to the thirty-seventh parallel of north latitude, thence due east on said parallel to the western boundary of the State of Missouri, thence due north on said boundary to the place of beginning.

Also, that the said State of Kansas shall be entitled to one Representative in the House of Representatives of the United States under the present ratio of representation, until the next decennial census and apportionment of Representatives shall be made by Congress.

Also, that the following propositions be, and the same are hereby, offered to the said State of Kansas, when formed, for the free acceptance or rejection of the people thereof, which, if accepted by a majority of the qualified voters of said State, voting at an election to be held for that purpose, at the time hereinafter provided for, shall be obligatory upon the United States and upon said State of Kansas, to wit:

First—That the said State of Kansas shall have and hold the sections numbered sixteen and thirty-six in each township in said Territory, and where either of said sections or parts of sections has been sold or otherwise disposed of by or under the authority of the Government of the United States, other lands equivalent thereto, and as contiguous as may be, shall be granted to said State for the use of schools.

Second—That seventy-two sections of land shall be set apart and reserved for the use and support of a State University, to be selected by the Governor of said State, subject to the approval of the General Land Office of the United States, and granted to said State for the purposes aforesaid; but no such selections shall be made within the limits of any military reservation, or other reservation of the United States, without the consent of the proper authorities.

Third—That all salines or reservations of land and the timber thereon, shall be granted to said State for its use, the same to be selected within such limits as shall be prescribed by law, and subject to the approval of the General Land Office of the United States.

Fifth—That the proceeds of the sales of all lands that may be granted by Congress to said State for the purpose of erecting public buildings, or for any other purpose, shall be applied exclusively to the objects designated in the several acts of Congress granting the same.

Sixth—That the said State shall never tax the lands belonging to the United States, and that in no case shall non-resident proprietors be taxed higher than residents.

Seventh—That the said State shall have concurrent jurisdiction on the Mississippi and all other rivers bordering on the said State so far as the same shall form a common boundary to said State, and any other State or States now or hereafter to be formed or bounded by the same; and that the navigable waters leading into the Gulf of Mexico and into the Atlantic Ocean shall forever be free to the citizens of the United States, without any tax, duty, impost or toll therefor.

Eighth—That the following propositions be, and the same are hereby, offered to the said State of Kansas, for the free acceptance or rejection of the people thereof, which, if accepted by a majority of the qualified voters of said State, voting at an election to be held for that purpose, at the time hereinafter provided for, shall be obligatory upon the United States and upon said State of Kansas, to wit:

Third—That seventy-two sections of land shall be granted to said State for the purpose of erecting a State University, to be selected and located as aforesaid, and to be appropriated and disposed of exclusively for the purposes of said University, in such manner as the Legislature may prescribe.

Fourth—That ten entire sections of land shall be granted to said State for the purpose of erecting suitable buildings for the use of a Deaf and Dumb Asylum, a Blind Asylum, and a Lunatic Asylum, in such proportions as the Legislature may direct, and for the support of said Asylums, or such of them as the said State may from time to time establish.

Fifth—That the said State shall receive the same quantity of land for the purpose of completing the public buildings, or for the erection of others at the seat of government, and for internal improvements, that has been granted to any new State admitted into the Union since the formation of the original States.
